

Lakeside Union School District Student Internet Acceptable Use Policy Agreement

(Please return this form to your attended school)

We are pleased to offer students in the Lakeside Union School District access to the Internet. **To gain access to the Internet, all students under the age of 18 must obtain parental permission and must sign and return this form.** Access to the Internet will enable students to explore thousands of libraries, databases, and bulletin boards throughout the world. Families should be warned that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Lakeside Union School District supports and respects each family's right to decide whether or not to apply for access.

School Internet Rules

Students are responsible for good behavior on school computer networks just as they are in the classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply. The network is provided for students to conduct research. Access to network services is given to students who agree to act in a considerate and responsible manner. **Parent permission is required. Access is a privilege – not a right. Access entails responsibility.**

Individual users of the school computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with school standards and will honor the agreements they have signed. We endeavor to block inappropriate matter through content filtering software on the Internet. Anyone caught trying to bypass the filtering software in order to access denied sites, may result in cancellation of the privilege of working on school computers.

Network storage areas may be treated like school lockers. Network administrators may review files to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. The district reserves the right to monitor any files that may be inappropriate.

The Lakeside School District uses Google Apps for Education to support learning in the classrooms. Google Apps for Education Information FAQ's pamphlet can be found on our website and the back of this policy agreement for review.

Within reason, freedom of speech and access to information will be honored. During school, teachers of younger students will guide them toward appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio, and other potentially offensive media.

This form is a condensed version of the School Board Policy entitled Internet Acceptable Use Policy, which is available at the Lakeside Union School District Office.

The following are not permitted:

- Sending or displaying offensive messages or pictures
- Using obscene language
- Harassing, insulting or attacking others (Cyber Bullying)
- Damaging computers, computer systems or computer networks
- Violating copyright laws
- Using another's password or login
- Trespassing into another's folders, work or files
- Intentionally wasting limited resources
- Employing the network for commercial purposes
- Violations may result in a loss of access as well as other disciplinary action.

⌋ Yes, as the parent or legal guardian of the student signing below, I grant permission for my son or daughter to access the Internet. I understand that individuals and families may be held liable for violations. I understand that some materials on the Internet may be objectionable, but I accept responsibility for guidance of Internet use by setting and conveying standards for my son or daughter to follow when selecting, sharing, or exploring information and media. I have explained this to my student as indicated by his/her signature below.

⌋ Yes, I grant permission for my son or daughter to access Google Apps.

⌋ No, I do not grant permission for my son or daughter to access Google Apps.
