

Immunization Registry Disclosure Statement

We are authorized members of the Central Valley Immunization Information System. This system permits the sharing of a computer record of your, or your child's, shot dates no matter where they are given. At any time, you and your doctors can see what shots you, or your child, have received and which shots are needed now. It will help you and your doctor protect yourself, or your child, from serious illnesses like polio, whooping cough, measles and meningitis.

The information in the Central Valley Immunization Information System is confidential. Only authorized members may review it. Authorized members include local or state health departments, medical care providers, and those agencies that need to know what immunizations you or your child has had (such as schools, child care facilities, family child care homes, WIC programs, health care plans, and CalWORKs). **All of the people and groups listed above are required by law to keep it confidential and use it only for the reasons listed above.** We will not give this information to any other person or group.

This is the information that the Central Valley Immunization Information System may keep about you or your child:

- Name, birth date and birthplace
- Sex (male or female)
- Current address and phone
- Other information that may help identify you or your child accurately.
- Names of parents or guardians
- Types of vaccines and dates given
- Any serious reactions to shots

You have the right to:

- Look at your, or your child's, record and have corrections made.
- Refuse to get reminder notices when vaccines are due.
- Refuse to have us share any of this information now or any time.
- Get the names and addresses of anyone with whom this information is shared.

If you do not want to participate in the registry or do not want to receive reminder notices, **please tell us now.**
