

Are You Tomorrow's Teacher?

Like many parts of California, Kern County is facing a shortage of school teachers. A combination of an aging workforce and impending retirements, population growth in our community and a declining number of candidates enrolled in teacher preparation programs has contributed to the deficiency.

Jobs are aplenty for teachers. Our **Prospective Teacher Information Sessions** are

designed to bring more candidates into our local university teacher credentialing programs and give second career candidates, bachelor's degree holders and college students a one-stop shop to learn about earning a teaching credential and be linked to resources to assist them on their pathway to teaching.
